ACTION DEMANDED TO STOP WORMS

Farm Bureau Makes Appeal to Wisconsin Department of Agriculture.

Demand that some definite action be taken to stop the devastation of the army worm in Rock county by the agricultural authorities was made by the Rock county executive board of the Farm Bureau during a special meeting Tuesday afternoon.

An appeal is to be made to Commissioner John Jones, Wisconsin department of agriculture, and K. L. Hatch, chief of extension work, that something be done at once to curb the destruction of the worm in the forage and corn fields of the county.

A meeting is to be held in Janesville later this week, at which time state experts will lecture on the methods employed to stop and poison the worm.

Need More Birds.
Bureau directors pointed out that one of the reasons for the ravages of the worm was the failure to properly protect bird life. "There are more birds here than we need," declared the directors. "Here it has been more than a week and outside of good publicity there has been no effort to stop the ravages of the worm."

"Certainly the army worm question ranks paramount at the present time," warned Henry Wieland, Jr., president of the Rock county Farm Bureau. "It is a tough enough time without losing half their crops."

In all the corn growing sections and in parts of southern Wisconsin the great swarms of army worms continue to make a crawling march, leaving more shreds in their wake. Radio lectures by the American Farm Bureau are being held in all parts of the state for the first time in recent years have invaded Wisconsin.

Use Tolson Bran.
An appeal has been made to state entomologists to come to Rock county and help curb the ravages of the worm. Tolson bran is being spread by Grant county farmers, under the leadership of County Agent Jack Koyan, and helped in eradicating the loss.

Farmers in the Janesville section, in keeping a sharp inspection for the army worm, declare they have found evidence of a worm but the farmers upon whom the loss is being visited, weeded out by every farmer. Farmers report that the strange insects consumed enough of the thistles to wilt them and thus far have not bothered other plants.

"This being true, we'd better get a bunch of those worms and breed them for they certainly are needed," declared one Rock county farmer, whose thistle patch has been visited by the friendly worms. "If they would only eat the thistle and kill off the army worm it would pay us to cultivate and propagate them."

CONSIDER DAIRY CONTRACT DURING WATER TOWN MEETING

The proposed Standard Dairy Marketing pool contract will be considered during a meeting in Watertown, July 14, according to letters sent out by Senator J. C. Schumann, who has backed many agricultural legislative measures in Wisconsin.

The contract stated to have been submitted to the Wisconsin Department of Markets, the College of Agriculture and other marketing authorities, is aimed to establish a Wisconsin organization to enable producers to have a greater voice in the marketing of dairy products. There is no evidence of connection between the Wisconsin contract and that offered by the rival Chicago agencies.

Members of the Rock county Farm Bureau executive committee voted to be represented at the meeting by President Henry Wieland, Jr., president. The entire executive committee will name a sub-committee to confer with the powers to name alternates for dealing with any local milk problems.

SELECTING CATTLE FOR COUNTY HERDS

Selections are being made this week for the cattle for the Rock county herd which will be first exhibited at the Rock county fair in Evansville, opening August 4.

It is the present plans of Jack C. Nisbet to show 60 head at the county fair, including 10 to 20 milk cows, 20 Shorthorns, 17 Guernseys, with a few Jerseys, Ayrshires and Brown Swisses. This exhibit will be shown at the Janesville fair the following week and additional cattle will be brought in for a round-up and the best of the exhibit will be taken on the long circuit into Illinois, Iowa and the Wisconsin state fair and the National Dairy show. The Rock county men contracted to go with the cattle this year under the management of Stewart Barless, Stewart Walker, Perry Miller and Harvey Barker. The successful 1922 exhibit, have also been hired.

Present indications are that Rock county will have at least a 50 percent stronger collection of cattle than last year, declares Nisbet. They will need to be better for the National Dairy show is attracting many exhibitors and the competition will be stronger than any recent year.

BUREAU WILL JOIN CO. WELFARE UNIT

The Rock county Farm Bureau will participate in the federation of social and welfare organizations of the county—the Rock county Conference of Social Workers as the result of a resolution passed Tuesday afternoon. The various voluntary and welfare organizations are affiliated through the conference. Secretary J. C. Hemmingsway was named as the Bureau representative.

ALL CONGRESSMEN IN FIELD AGAIN

Will Go Into Republican Primaries—Democrats Planning Campaign.

(BY ASSOCIATED PRESS)
MILWAUKEE—Every incumbent Wisconsin congressman again will be in the race for re-nomination, according to information reaching here from all districts in the state. A number will be unopposed within their party to which they belong, others will have to compete for the nomination and still others will have no opposition within or without the party according to the latest indications from the field.

In Milwaukee, socialists again have renominated by referendum, Victor L. Berger of the fifth district and have placed Lee Kravetz in the field in the fourth district, in an attempt to wrest the seat from Congressman John C. Shaffer, republican. Mr. Shaffer will return July 9, to direct his campaign from his home in Wauwatosa.

As a general thing, incumbent congressmen are slow in filing nomination papers. Only two have filed to date. These are James A. Frear, tenth district, Madison, Wis., and Florian Lampert, sixth district, Oshkosh. Both will make active campaigns with little if any opposition in the republican ranks. It is believed.

Republican congressmen will have heavy opposition in the first, seventh, eighth and eleventh districts, according to the drift of political maneuvering coming from those units. In the last named district, Adolphus H. Nelson, republican, Grantsburg, former congressman, is to seek a comeback for the seat of congressman H. H. Penney, of Wausau, political observation agent.

In the eighth district, A. H. Oberlein, republican, Wausau, has announced himself as a candidate for the nomination in place of congressman J. P. Brown, Wausau. The latter will contest this effort, as indicated by his intention to run again.

Primaries in the First.
In the first district, as usual, there can be expected a lively race for the seat held by Congressman Henry A. Cooper, Racine. Friends of Charles H. Fleming, former mayor of Kenosha, have been active for weeks in the latter's behalf. Fleming is an avowed candidate, and is soliciting the support of all republican elements in the district. Cooper is affiliated with the La Follette faction of the party.

Democrats, while declaring their party will have a complete congressional slate in the field in the fall election, have been proceeding slowly, stifling their available timber exceedingly fine, and will not make serious announcements as to their slate until after the return of political leaders from the national democratic convention in New York. In the meanwhile, in every county in Wisconsin, the democratic party is quietly organizing clubs whose purpose it will be to sound sentiment and promote democratic aims.

Calvin Stewart, pioneer democrat of Kenosha, has been mentioned for the congressional race in the first district. Another potential democratic congressional candidate is William Egan, St. Croix county, who is said to have ambitions to take the seat occupied by Representative James A. Frear, Hudson, who has already filed for re-nomination, in the republican field.

These are the early indications of the campaign which is not expected to show signs of intense activity for several weeks, when the number of other candidates are expected to enter the field.

Weather Dampens Swimmers' Ardor; Attendance Small

Due to the cold and wet weather which has, until the past two days, prevailed, attendance at the two city swimming beaches since their opening June 17, has been small, according to the report of Arthur Wheeler, director. The total to date is approximately 3,400.

By far the larger number have patronized Goose Island, the Holapple beach on the west side of the river being almost deserted on many occasions.

Damage to Shore.
Much damage was done during the recent high water, which carried some of the sand placed on the beach, and did minor injury to other property. Most of the loss was in time in getting equipment installed and preparing for the large crowds which are now attending. It is stated.

Among other things which have kept some away this year, in the opinion of Mr. Wheeler, was the extremely poor condition of the roads. That Goose Island is now repaired, having been graded by the city and ice company operating the ice houses located here. It is now possible to bring cars near the beach, to date. Improvement this week included the roping of a section of shallow water for small children and those unable to swim, and the completion of board walks. It is possible to step from the water directly to the walk.

Water at Normal.
The water is now down about to its normal level, and is considerably cleaner than during the past week, it is said.

The vandalized steel slide, which was to have been placed at Holapple beach, has been lost, and it has so far been impossible to trace it. Anyone knowing of its whereabouts is requested to communicate with the director.

The frame, including the ladder, has been set up, and it is expected that the slide part will be found soon since it is of no use to anyone without the frame and not suitable for any other purpose. A 15-foot diving tower has also been set up.

LYNCHINGS ARE ON DECREASE IN SOUTH

Tuskegee, Ala.—A sharp decrease in the number of lynchings on record is shown in figures by Tuskegee Institute. During the first six months of 1923 five lynchings have been committed, two in Florida, two in Georgia, and one in South Carolina. The first six months of 1922 showed 10 such crimes, in 1921 the first six months revealed 39, and the first half of the year before, 36.

"This is an encouraging sign of progress toward elimination of the evil," said Dr. J. M. G. found soon since it is of no use to anyone without the frame and not suitable for any other purpose. A 15-foot diving tower has also been set up.

All of the persons lynched were negroes.

TANKS TO CAMP NEXT SATURDAY

Machines Sent Away on Flat Cars Tuesday—Eighty Men to Make Trip.

The army in the old high school building is a busy place this week, as preparations are made for the 32nd Division Tank company of Janesville to embark Saturday for Camp Douglas where it will spend its annual two weeks' training period.

Capt. Perle Grimshaw is devoting his entire time to caring for all tanks, to put everything in readiness for the time of departure Saturday morning on the Chicago, Milwaukee and St. Paul special train.

Eight tanks were mounted on flat cars at the depot, Wednesday, and will be taken to Camp Douglas to await the arrival of the Janesville company, the only tank unit of the Wisconsin national guard. The unit's regular truck, valued at \$50,000, is en route to Camp Douglas overland, being driven by Osborn McDonald and William Edgcomb.

Although more than 25 men have been honorably discharged from the company's roster during the past few weeks, the enlisted strength now totals 88, and 80 are expected to entrain for camp. This will give the company a much larger representation than it enjoyed last year, when 59 entrained and 53 remained to the close of the two weeks' period.

YOTE SCHOOL ADDITION.
Johnson Creek—By a two to one vote Johnson Creek school voted for a \$10,000 addition to the present school building at a meeting held Monday night at the city hall. A modern building will be built on the north side of the old school. The old building will be rebuilt to give needed room for the grades. Otto Auer was elected clerk, to take the place of Dr. Stuchin, whose term expired.

Act to Prevent Shoe-Dye Poison

Madison—Steps to lessen the cases of shoe-dye poisoning, several of which recently have been reported, have been taken by the state board of health, it is announced.

Dr. A. S. Levenhart and Dr. C. W. Muehlberger of the university discussed with the board proposed preventive measures. Analysis have been made by Dr. Muehlberger, state toxicologist, of dyes manufactured by three concerns and his investigations into individual cases indicated, he said, that the dye itself was not the injurious agent and that the poisoning was produced by the vehicle which contains the dye.

The state board of health voted to petition the U. S. Public Health service to prevent the interstate shipment of these products, and requested that all physicians be notified of the danger of shoe-dye poisoning and be given a brief report of this type of poisoning to aid in making reader diagnoses of such cases.
